Not providing signs.

Sent from my BlackBerry 10 smartphone.

Thanks, thanks, thanks for the update.

I updated the Superfund Site Summary, and mentioned EPA Removal was coordinating and planning actions that may be needed, but didn't give any details or specific dates, so as to be on the safe side. Once they get done, we can claim credit.

Did providing signs for the Church property were included?

Bart

Bart/Todd

Fyi, looking to initiate fence and well cap installation at Wilcox in about two weeks. Currently waiting on final approval of the action memo.
